

## Constellation Song

Look up at the stars as they shine  
Each one has a name it's assigned  
And when they form a group in they sky  
It's called a constellation

Now in that group, each star has its place  
It never moves, like the nose on your face  
So point up with your finger and trace  
To find a constellation  
We love our constellations  
We love our constellations!
